

Ensure you are getting the most from your cloud with
Cloud Insights from NetApp Workshop

Take the lead with a custom pair of Nikes designed by you when you sign up for a Free Cloud Insights Trial*

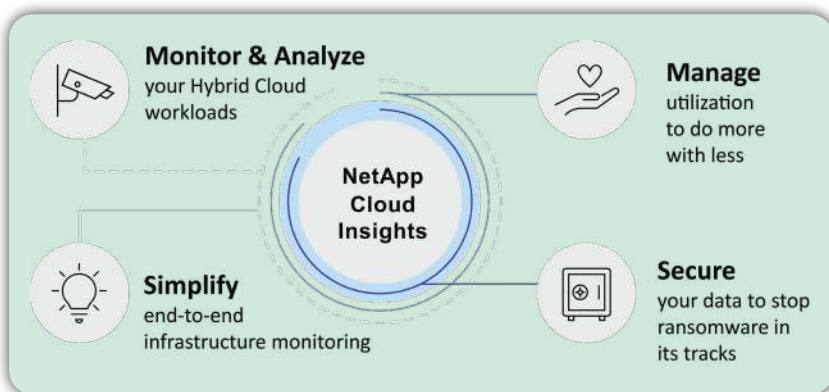

Optimize your cloud to do more with less

Join us for this one-hour virtual workshop to learn how to get real-time data of availability, performance, and utilization of all your infrastructure, both cloud and on-premises.

Cloud Insights is a cloud optimization tool that lets you monitor, troubleshoot and optimize all your resources and applications across your entire technology stack.

This workshop will help you

- Discover unused infrastructure and over-provisioned workloads to optimize the value of your cloud spend
- Simplify end-to-end monitoring in your cloud environment
- Manage resources more effectively to do more with less
- Gain complete visibility into your infrastructure and applications
- Detect ransomware before it impacts your business
