

PROTECT **M365** WITH RUBRIK CLOUD BACKUP

Assured Data Protection (Assured) is a global data backup and disaster recovery managed service provider. As Rubrik's largest and most established MSP, ADP operationalize Rubrik's Zero Trust Security solutions, delivering data security and protection to customers in over 50 countries worldwide.

A dedicated team provides 24/7/365 support to ensure customers can protect, detect and recover critical data and operations with minimal downtime.

Built on Rubrik's Security Cloud, ADP's managed service solutions enable organizations to control their entire backup environment ensuring resiliency against data loss, natural disasters and cyber attacks.

ADP's cloud backup for Microsoft 365 offers organizations the ability to securely protect, recover, and archive their Microsoft 365 suite utilizing Rubrik's Zero Trust Data Security.

RANSOMWARE PROTECTION

Utilizing Rubrik's air-gapped protection solution, your backups are separated from the M365 tenant and solution. If it is compromised for any reason, an isolated backup ensures ransomware recovery readiness and provides the confidence that you can restore from a clean copy of your data.

FAST RECOVERY

Quickly restore Exchange Online, SharePoint, OneDrive and Teams data in just three clicks. Easily locate data with global, predictive, file-level search to recover with near-zero RTOs to maintain business continuity.

UNIFY MANAGEMENT

Your data is accessible through a single, intuitive dashboard. Eliminate manual job-scheduling and streamline management for tens of thousands of users with one SLA policy across enterprise cloud and SaaS apps.

ONEDRIVE & SHAREPOINT

Keep digital assets safe from harm with OneDrive and SharePoint backup.

FLEXIBLE PRICING

Suit your business with monthly/annual options and a pay-per-user model.

EXCHANGE BACKUP

Automate backups for Exchange to maximize speed and manageability.

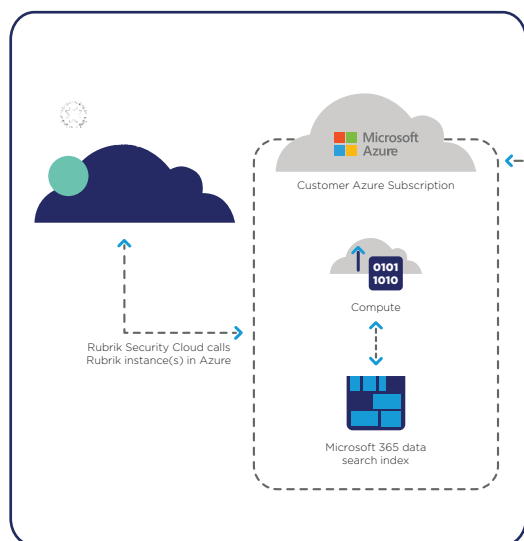

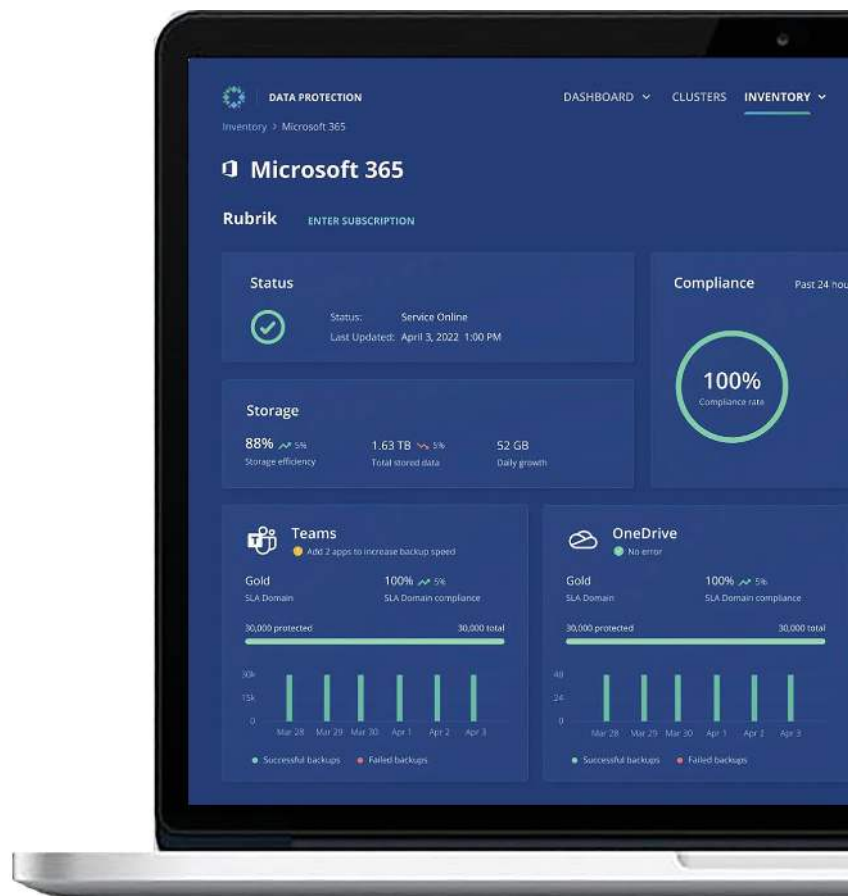

EMAIL BACKUP

Advanced email archiving, eDiscovery, malware protection and more.

TECHNICAL OVERVIEW

- Schedule backups that meet your requirements using Rubrik SLA domains.
- Granular recovery of objects across subscriptions.
- Store your backup data in our default location or your own Microsoft Azure storage.
- Perform out-of-place restoration of data with full fidelity and user mapping.
- Quickly locate the specific records you need to restore through keyword search capability.
- Comprehensively review backup and restore details via the Rubrik Security Cloud or history reports.
- Assign roles for administrative specific responsibilities on backup recoveries.
- Gain full visibility of how your backup and restore service is being used.

BOOST CONFIDENCE WITH RUBRIK CLOUD BACKUP FOR M365

Rubrik Cloud Backup as a Service safeguards your M365 data ensuring retention and rapid recovery, freeing up your time for other critical IT priorities.

- The service scales as you grow without IT intervention.
- You'll have the latest technology, so you never have to worry about software upgrades.
