

Ensure Resiliency Against Cyber Threats

Webinar and Live Demo

How Resilient is your Data?

Learn how to go beyond traditional backup and recovery to get continuous data protection for your organization. CloudPro and Assured together can help you secure your backup data in an immutable format, whether on-site, off-site or in the cloud.

Join this webinar to learn how:

- Secure your backup data in an immutable format
- Detect anomalies, large data changes or suspicious behavior in your backup environment
- Recover from ransomware attacks, on-prem or in the cloud, with near-zero RPOs & RTOs
- Recover all your critical IT systems in minutes and hours, not days or weeks
- Replicate critical data to a secure, off-site location to keep operations running

Thursday, June 1
10:00 AM - 11:00 AM PDT

Register

Receive a free pair of Nike shoes designed by you when you sign up for a free Assured Data Protection trial. Available in North America only.*
