

Telefónica Tech | NetApp Spot Webinar

Optimize your Cloud Spend with Spot by NetApp

Let Spot save you up to 70% on your cloud spend

Join us for this one-hour virtual workshop to learn how Telefónica Tech enables you to take control of your cloud spend while continuously optimizing your cloud infrastructure.

Join our Spot webinar to learn how to:

- Understand your current cloud infrastructure and spend – and identify cost-savings opportunities optimized for your specific needs
- Capture cost reduction with maximum efficiency from workloads running across major public clouds
- Use machine learning and analytics for smarter cost management
- Leverage predictive rebalancing for SLA-backed workload continuity
- Build a blueprint for cost-efficient cloud consumption that cuts costs today and in the future
